

# BANK OF AMERICA

Cloud Adoption

# Meet The Team

- Atiya Shafi
- Lucan Chang
- Samiha Afrin
- Yasmin Sapoglu

# WHICH CLOUD ADOPTION MODEL?

Private Cloud

VS

Hybrid Cloud

VS

Public Cloud

# Private Cloud VS Public Cloud

## PROS

- Control of the infrastructure
- Minimises the risk of a security breach
- Limited access

## PROS

- Lower costs
- No maintenance
- Near-unlimited scalability.

---

## Cons

- Extremely expensive
- High maintenance cost
- Complicated system
- Requires a license for applications
- Extra cost of patching

## Cons

- Weaker security
- Lack of control
- Difficult to migrate
- Fixed contracts

# Hybrid Cloud

A mix of public and private clouds.

- More secure than the public cloud.
- Less costly than private cloud.
- Extremely scalable
- Portable
- Endless options for third-party services.
- Very reliable
- Flexible contracts

**Cloud provider suggestion: Microsoft Azure**

“

**The challenge for banks isn't becoming "digital" - it's providing value that is perceived to be in line with the cost - or better yet, providing value that consumers are comfortable paying for.**

Ron Shelvin, Chief Research Officer at  
Cornerstone Advisors

# Bank of America's Values

- Deliver Together
- Act Responsibly
- Realise the Power of our People
- Trust the Team

# REQUIREMENT BREAKDOWN

Security

Data Accuracy

Integration with other Systems

Maintenance Effort

Social Responsibility

# The Chosen Applications

**Resource  
Planning**

**Asset Health  
Management**

**Recovery  
Optimisation  
System**

**Data  
Warehouse**

**Social  
Performance  
Tool**

# Resource Planning

Manage staff capacity and resource allocation in the Chester Office.

## Cons

- Expensive System
- High Maintenance Cost

# Asset Health Management

Monitors the health of IT Facilities.

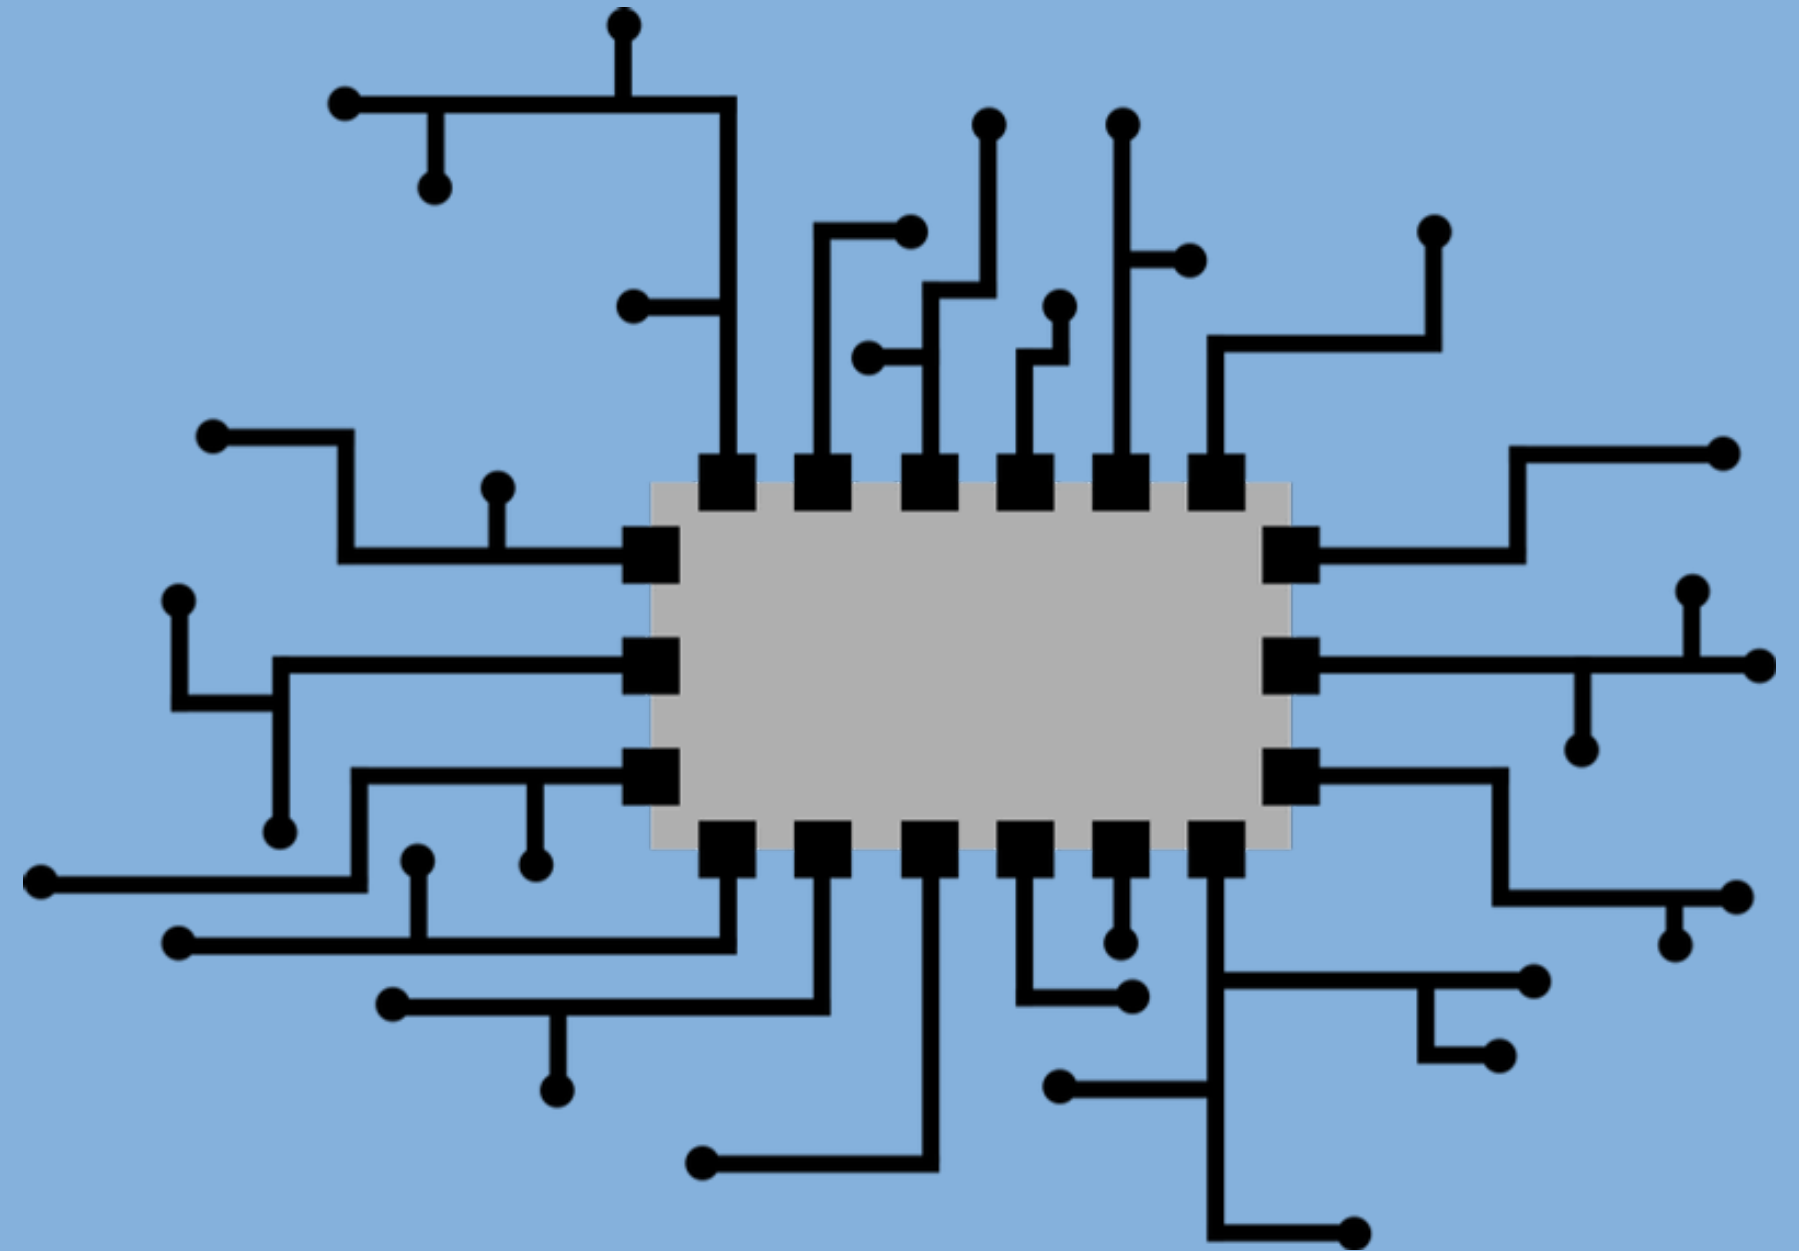

# Recovery Optimisation System

Optimizes how quickly Bank of America can recover from IT or system failure.

## Cons

- Expensive
- Redundant functionality in some areas

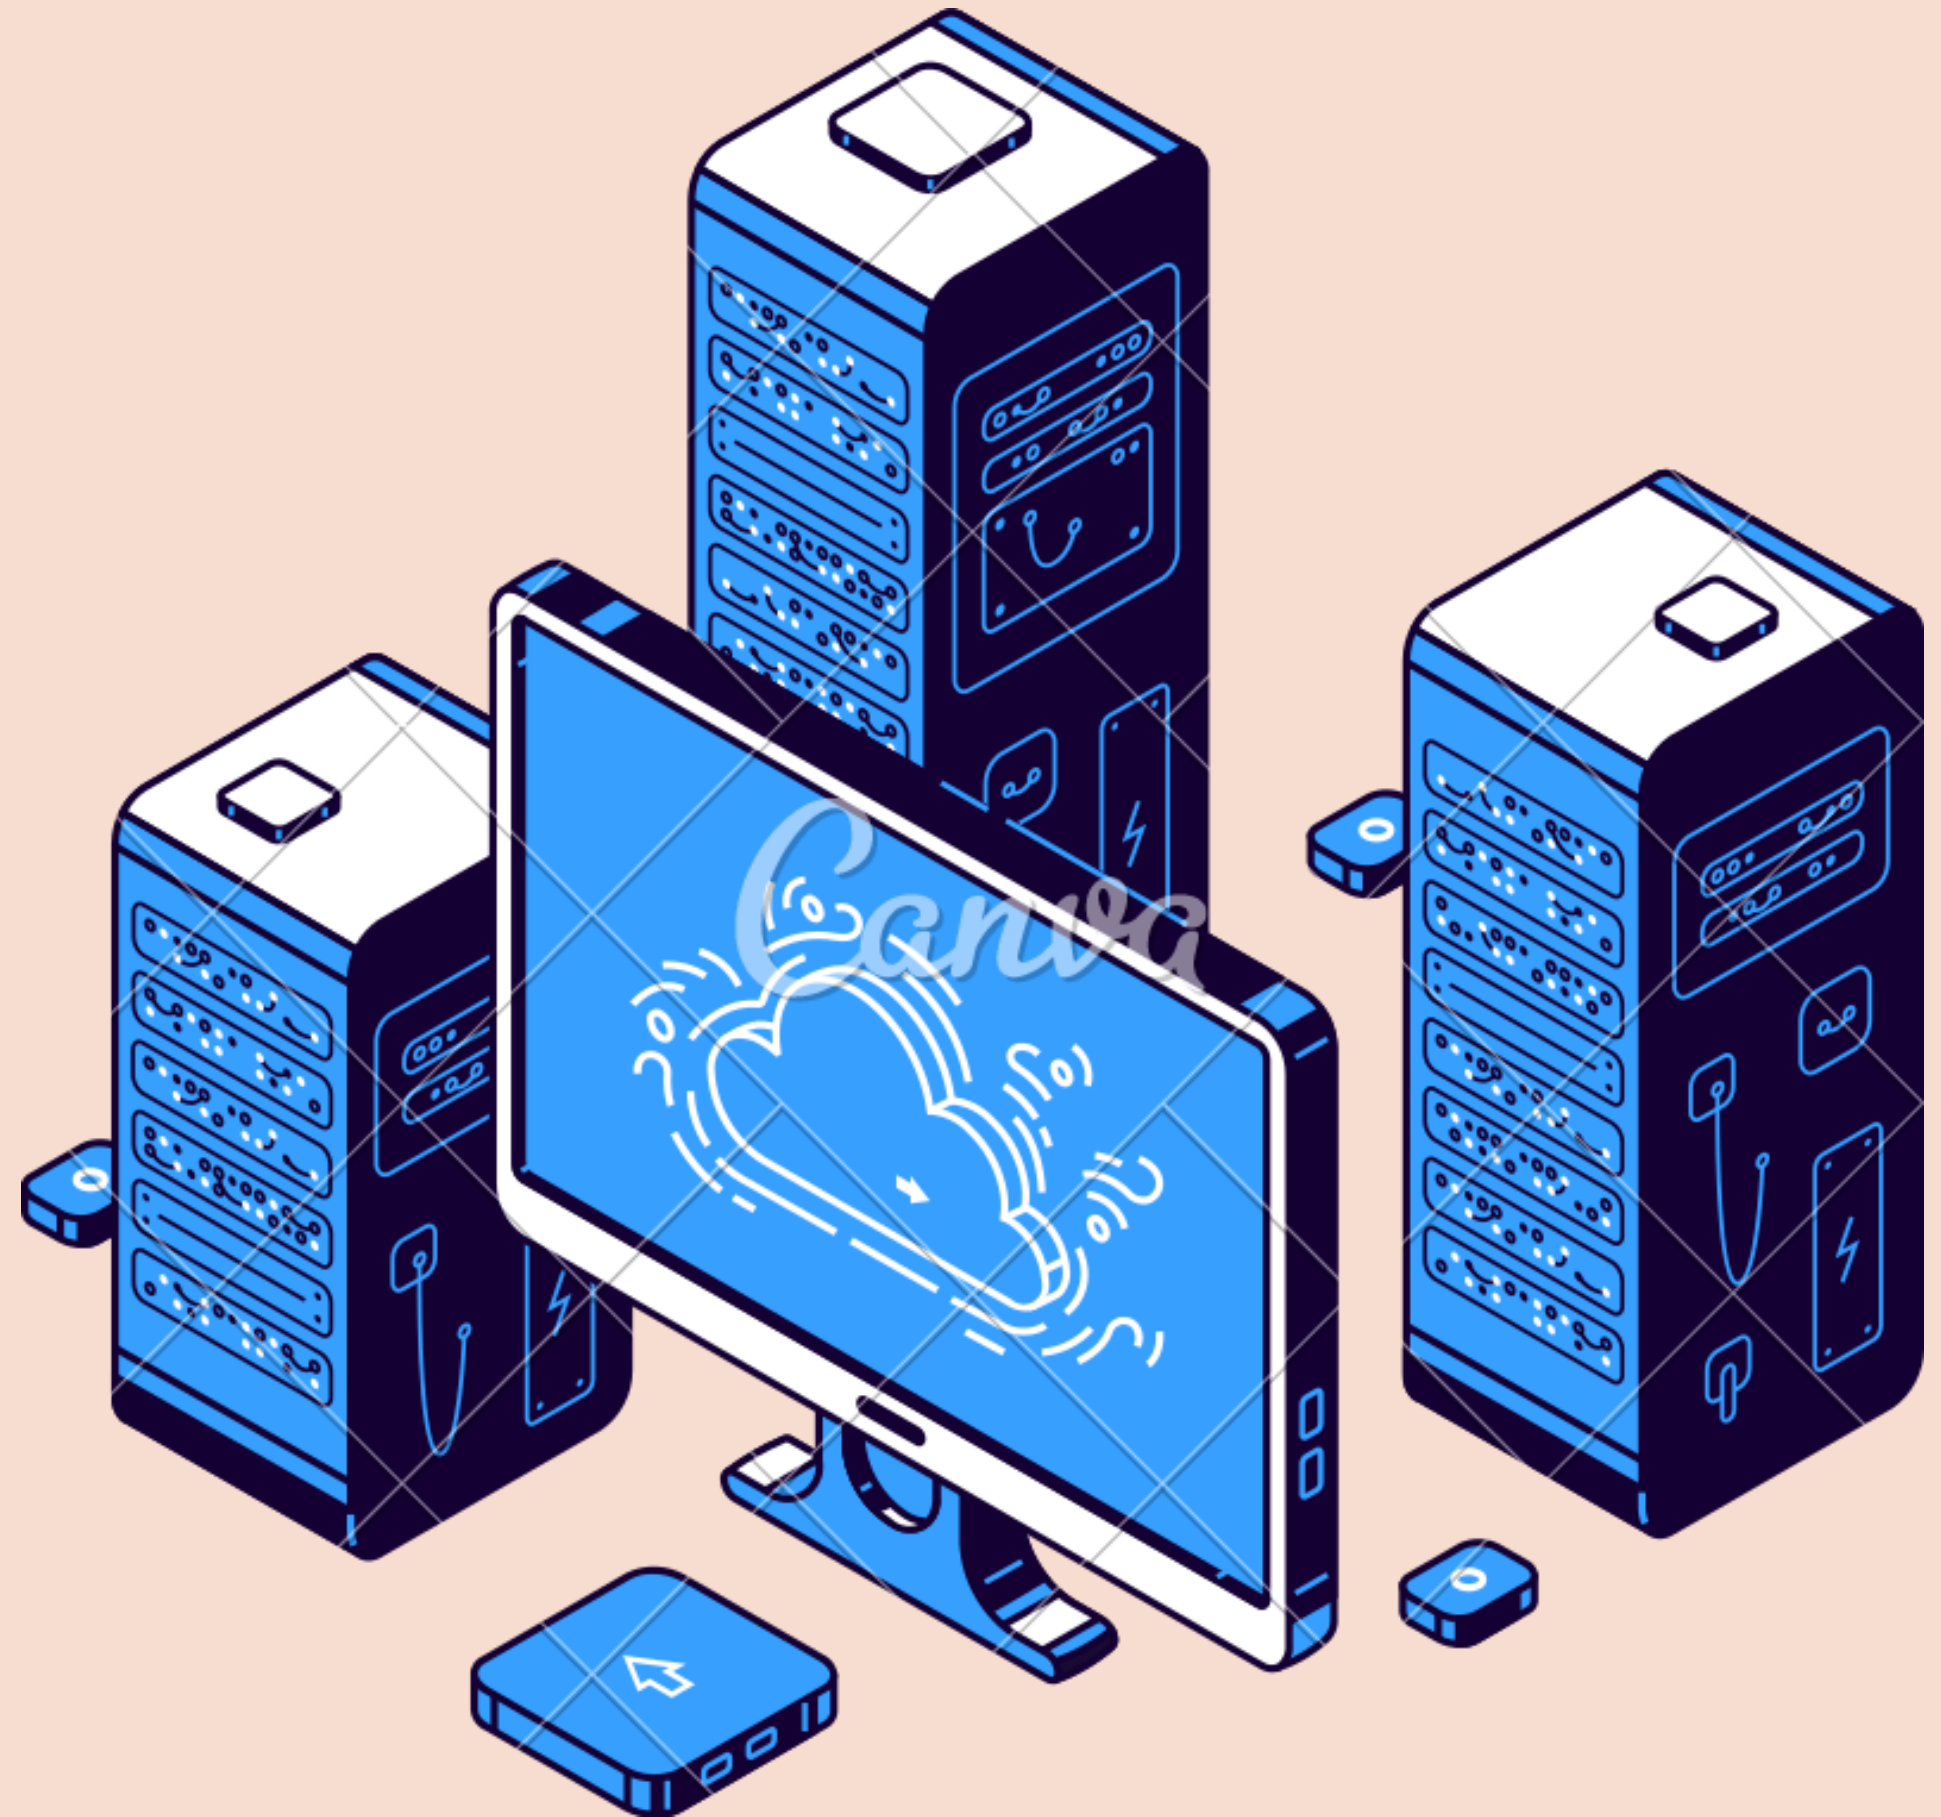

# Data Warehouse

Stores data from multiple systems.  
Can be used as an integrator  
between many tools.

## Cons

- Maintenance cost

# Social Performance Tool

Manage local community activities and the relationship with community.

# Choosing the IT Infrastructure

**Quality**

**Cost**

**Safety**

**Timely  
Delivery**

**Chester Tech Cloud**

# Why Chester Tech Cloud?

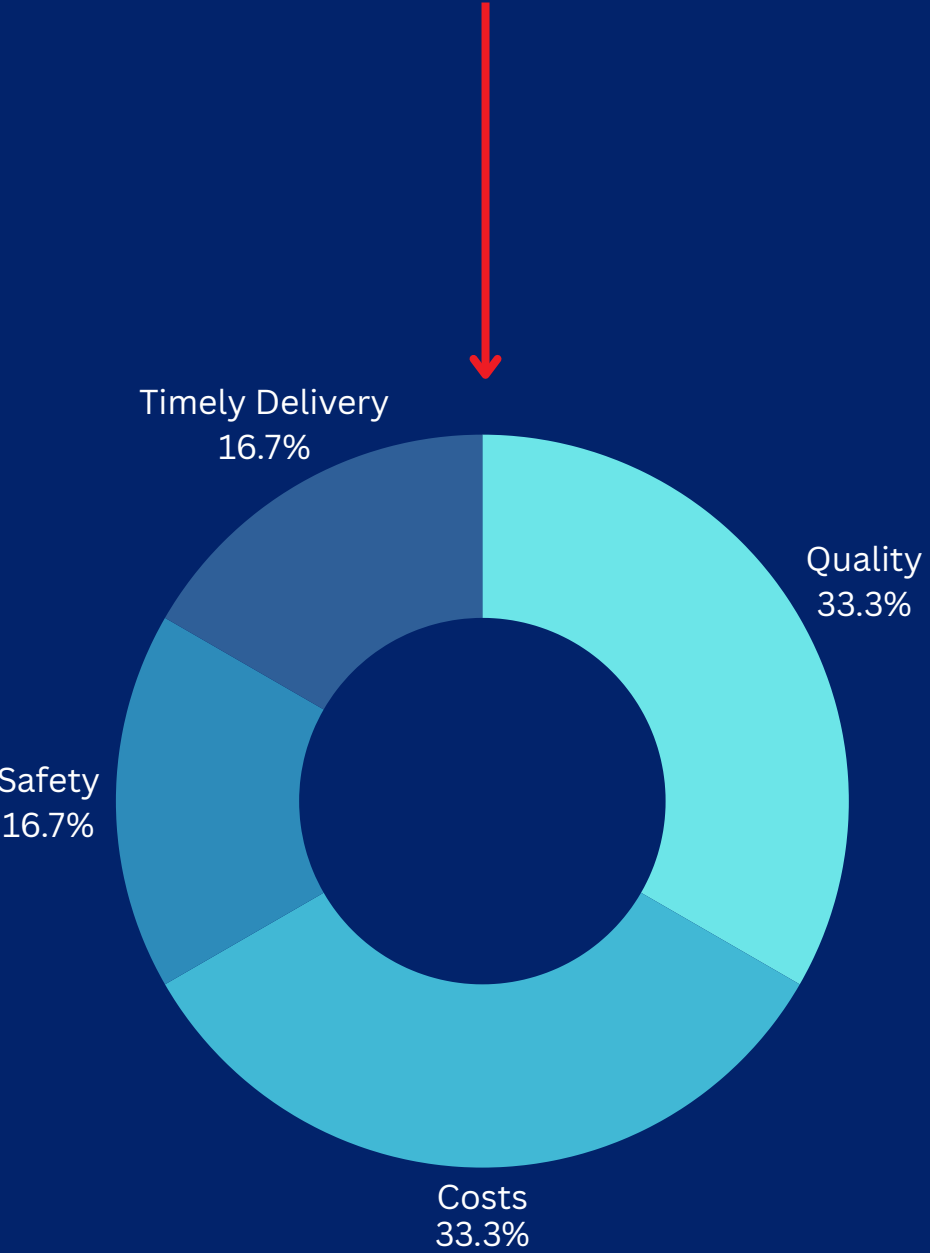

## Focus Deviation

Cost & Quality has become more of a priority!

~~\$750,000~~ to \$500,000

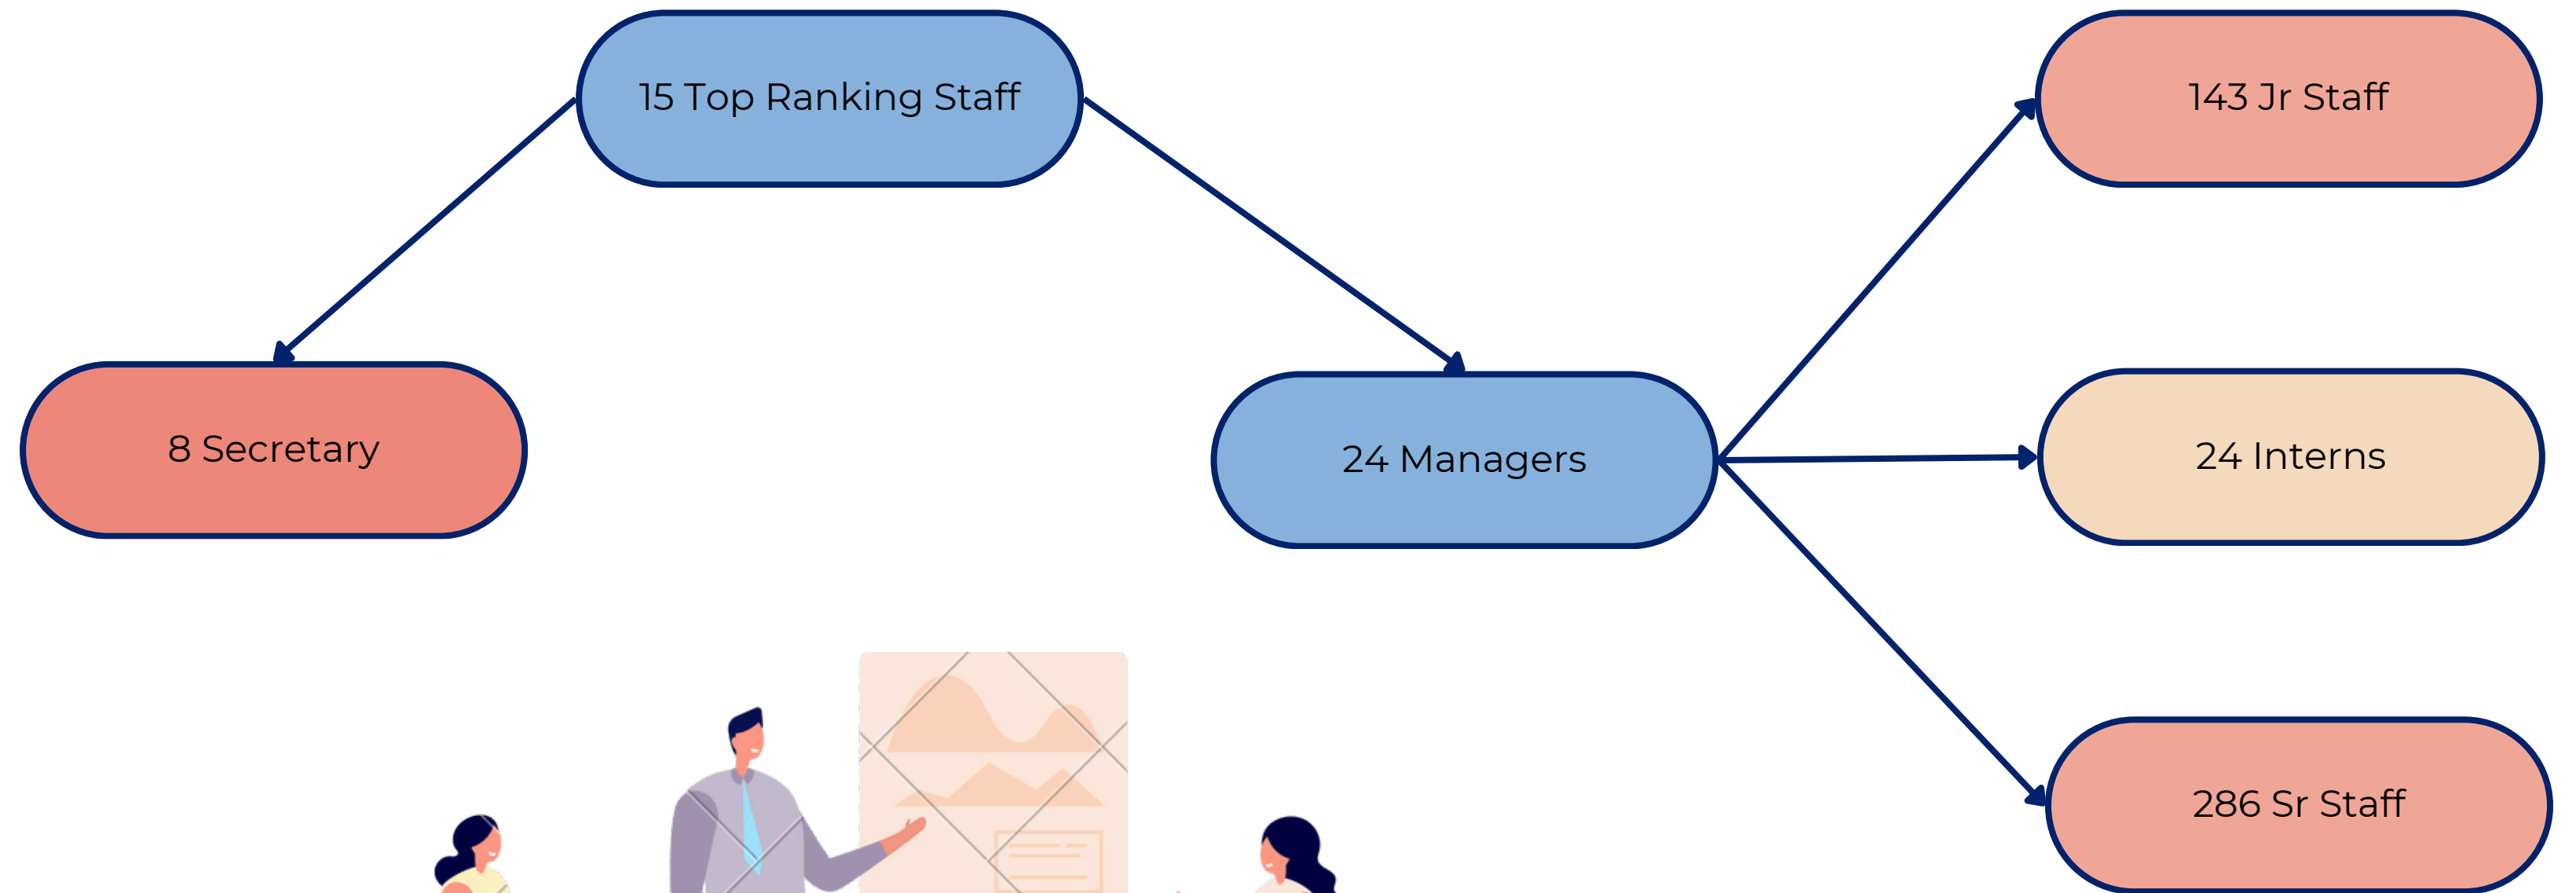

| Vendor             | Cost         | Quality       | Time Delivery | Experience |
|--------------------|--------------|---------------|---------------|------------|
| Chester Tech Cloud | Medium       | Medium - High | Doubts        | High       |
| Medania Tech       | High         | High          | On Time       | High       |
| GreenITWare        | Low          | Low           | On Time       | Limited    |
| Ogilvie Tech       | Low - Medium | Low to Medium | 1 Week        | No         |

**Please refer to the handbook  
for a detailed cost breakdown  
and Risk Management.**

# Understand Staff Distribution

**500 Total Staff**

# TOTAL COST BREAKDOWN

Management Cost  
Total - \$83,922

Staff Cost  
Total - \$383,388

Additional Cost  
Total - \$32,570

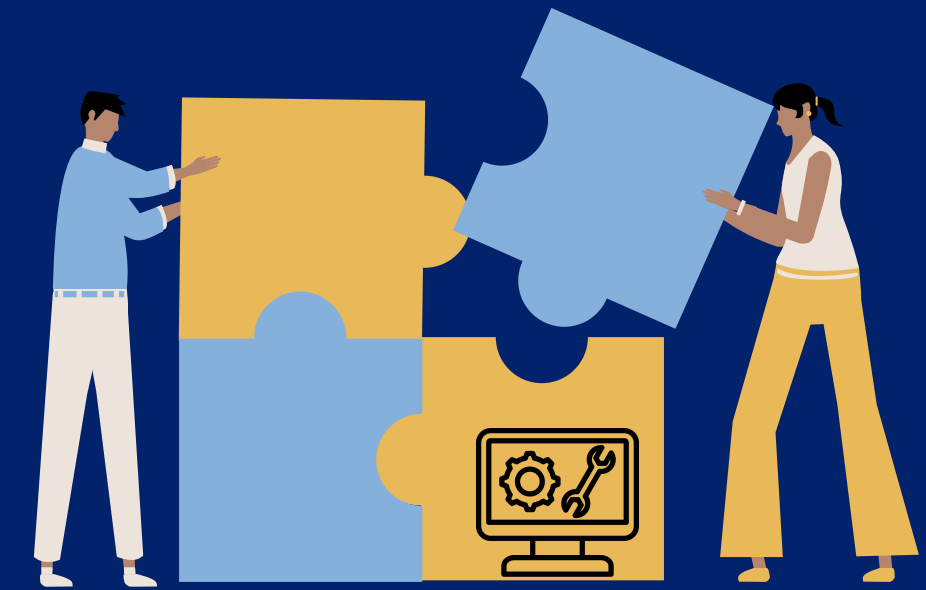

Total:  
\$499,880

# THE RIGHT I.T. SUPPORT

## OPTION A vs. OPTION B :

- 1 Prime
- 2 Essential
- 2 Maintenance
- 2 Prime
- 1 Essential
- 2 Consumption

|                                            | Prime            | Essential        | Maintenance                      | Consumption                      |
|--------------------------------------------|------------------|------------------|----------------------------------|----------------------------------|
| <b>Support time</b>                        | 24/7 support     | 24/5 support     | Support on standard working days | Support on standard working days |
| <b>Incident restoration - top priority</b> | 4 service hours  | 4 service hours  | 1 business day                   | 5 business days                  |
| <b>Incident restoration - priority 4</b>   | 20 business days | 30 business days | 60 business days                 | 120 business days                |
| <b>Disaster recovery time</b>              | 24 hours         | 72 hours         | 7 days                           | 1 month                          |

# APPLICATIONS WITH OPTION B

**Prime**

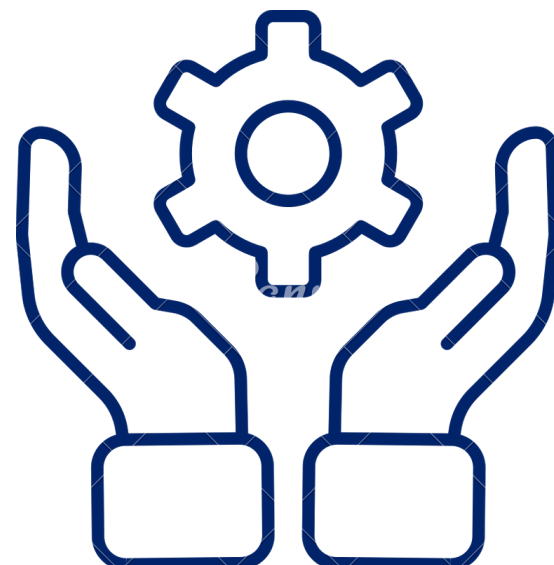

- Asset Health Management
- Data Warehouse

**Essential**

- Recovery Optimisation System

**Consumption**

- Resource Planning
- Social Performance Tool
